INDEPENDENT AUDITORS' REPORT

Honorable Mayor and Commissioners Town of Elkton, Maryland Elkton, Maryland

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the businesstype activities, each major fund, and the aggregate remaining fund information of the Town of Elkton, Maryland (the Town), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison statement of the general fund, the schedule of changes in the net OPEB liability and related ratios, schedule of changes in net pension liability, schedule of employer contributions and money-weighted rate of return, and schedule of employer contributions and proportionate share of net pension liability, and the notes to required supplemental information as listed on the accompanying table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The detailed schedule of budgetary comparison for the general fund and combining schedules of fiduciary funds as listed on the accompanying table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The detailed schedule of budgetary comparison for the general fund and the combining schedules of fiduciary funds as listed in the table of contents are the responsibility of management, and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the detailed schedule of budgetary comparison for the general fund and the combining schedules of fiduciary funds is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 29, 2021 on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliances.

Clifton Larson Allen LLP

Baltimore, Maryland March 29, 2021

INTRODUCTION

As management of the Town of Elkton, Maryland (the Town), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended June 30, 2020. The Management's Discussion and Analysis (MD&A) is best understood if read in conjunction with the Town's basic financial statements. We encourage users to read it in conjunction with the Town's basic financial statements, which follow this section.

Financial Highlights for FY 2020

The Town's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources at the close of the 2020 fiscal year by approximately \$66.5 million (total net position). Approximately 86% of this amount is attributable to the Town's utilities (Water and Sewer). Of the total net position, \$7.3 million (unrestricted) may be used to meet ongoing obligations to citizens and creditors, and \$58.1 million is the investment in capital assets.

As of the close of the 2020 fiscal year, the Town's only governmental fund (General Fund) reported an ending fund balance of \$1.6 million, a decrease of \$2.2 million. Of this total amount, \$1.1 million is restricted, \$1.6 million is assigned, and negative \$1.1 million is unassigned, primarily due to the construction of the Neighborhood Community Center.

The General Fund, on a current financial resources basis, reported expenditures in excess of revenues of approximately \$2.2 million.

The Town's total long-term liabilities decreased by approximately \$400,000 during the current fiscal year, from \$10.1 million to \$9.7 million. This is the net result of increased debt in the Governmental Activities of \$689,000, the retirement of existing debt in the Business-Type Activity of \$1.1 million, offset by a minimal increase to compensated absences.

Using This Annual Report

The basic financial statements in the financial section include two kinds of statements that present different views of the Town as described in more detail below:

- The government-wide financial statements, which are the statement of net position and the statement of activities, provide information about the activities of the Town as a whole. They present both short-term and long-term information about the Town's overall financial status.
- For governmental activities, fund financial statements tell how these services were financed in the short-term, as well as what remains for future spending. Fund financial statements also report the Town's operations in more detail than the government-wide statements by providing information about the Town's General Fund. The remaining statements are fiduciary fund statements and provide financial information about activities for which the Town acts solely as a trustee for the benefit of those outside of the government. The basic financial statements also include notes that provide explanation of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the Town's budget for the year.

• The chart below shows how the various parts of this annual report are arranged and flow in the Financial Section:

Independent Auditors' Report

Provides the opinion of the Independent Auditor on the fair presentation of the financial statements.

Management's Discussion and Analysis

This supplementary information is required for state and local government financial statements, and is intended to provide a narrative introduction, overview, and analysis.

Government-Wide Financial Statements

Provides information on governmental and business-type activities of the primary government.

Fund Financial Statements

Provides information on the financial position of specific funds of the primary government.

Notes to Financial Statements

Provides a summary of significant accounting policies and related disclosures.

Required Supplementary Information Supplementary Information

The chart below summarizes the major features of the Town's two financial statements, including the portion of the activities they cover and the types of information they contain.

	Fund Financial Statements							
	Government-Wide	Governmental	Proprietary	Fiduciary				
	Statements	Funds	Funds	Funds				
Scope	Entire Town (except fiduciary funds)	The activities of the Town that are not proprietary or fiduciary, such as Police, Parks, Recreation & Culture, and General Administration	The activities of the Town which are the same functions as presented in the business-type activities of the government-wide statements. These are activities which generally are operated to recover all or a significant portion of their costs through user fees and charges.	Instances in which the Town administers resources on behalf of someone else, such as the Pension Plan				
Required financial statements			 Statement of net position Statement of revenues, expenses, and changes in net 	 Statement of fiduciary net position Statement of changes in fiduciary net position 				
		balances	positionStatement of cash flows					
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus				
Type of asset/liability information	All assets and deferred outflows and liabilities and deferred inflows both financial and capital, short-term and long-term	Generally, assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities. Does include deferred inflows and outflows where applicable.	All assets and deferred outflows and liabilities and deferred inflows, both financial and capital, short-term and long-term.	All assets and liabilities, both short- term and long-term; funds do not currently contain capital assets, although they can.				
Type of in-flow/out- flow information			All revenues and expenses during the year, regardless of when cash is received or paid.	All additions and deductions during the year, regardless of when cash is received or paid.				

The following highlights are the structure and contents of each of the statements:

Government-Wide Financial Statements

One of the most important questions asked about the Town's finances is: "Is the Town, as a whole, better or worse off as a result of the year's activities?" The statement of net position and the statement of activities report information about the Town as a whole and about its activities in a way that helps answer this question. The two statements report the Town's net position and changes in them, and include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The statement of net position is designed to provide bottom line results for the Town's governmental and business-type activities. This statement reports the Town's governmental fund's current financial resources (i.e., short-term spendable resources) with capital assets and long-term obligations. All infrastructure assets built or purchased by the Town, and infrastructure dedicated by developers, are included in the accompanying government-wide financial statements.

You can think of the Town's net position, the difference between total assets and deferred outflows of resources and total liabilities and deferred inflows of resources, as one way to measure the Town's financial health or financial position. Over time, increases or decreases in the Town's net position are one indicator of whether its financial health is improving or deteriorating. You will need to consider other nonfinancial factors, such as changes in the Town's property tax base and the conditions of the Town's infrastructure, to assess the overall health of the Town.

The statement of activities is focused on both the gross and net cost of various functions. This is intended to summarize and simplify the users' analysis of the cost of various governmental services. In the government-wide financial statements, the activities of the Town are maintained within governmental and business-type activities. Most of the Town's basic services are reported here, including police, public works, recreation, and general administration. These activities are financed with revenues from property taxes, other state and county taxes, state and federal grants and charges for services. Additionally, the Town's water and sewer services are reported here.

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds - not the Town as a whole. Funds are accounting devices used to track specific sources of funding and spending on particular programs. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The funds of the Town can be divided into three categories – governmental funds, proprietary funds and fiduciary funds.

Governmental Funds – Most of the Town's basic services are reported in one governmental fund, which focuses on how money flows into and out of the fund and the balance left at year-end that is available for spending. The fund is reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Town's general governmental operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Town's programs. Because this information does not encompass the additional long-term focus of the governmental funds statements, additional information is provided in a reconciliation of the balance sheet of governmental funds statement of revenues, expenditures, and changes in fund balance to the statement of activities. The Town of Elkton maintains only one major governmental fund (the general fund).

Proprietary Funds – Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements.

The Town uses enterprise funds to account for its Water, Sewer, and Major Facility funds. Proprietary funds provide the same type of information as the government-wide financial statement, only in more detail.

Fiduciary Funds – The Town is the trustee, or fiduciary, for assets that belong to its employees' pension plans. The Town is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. These activities are excluded from the government-wide financial statements because the assets cannot be used to finance operations.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net Position

The following tables present a summary of the statement of net position for the Town as of June 30, 2020 and 2019, respectively:

NET POSITION - JUNE 30, 2020									
	Governmental	Business-type	Total						
	Activities	Activities	Activities						
ASSETS									
Current and Other Assets	\$ 6,646,619	\$ 11,544,672	\$ 18,191,291						
Capital Assets	12,105,915	55,108,893	67,214,808						
Total Assets	18,752,534	66,653,565	85,406,099

NET POSITION									
Net Investment in Capital Assets	11,449,915	46,622,524	58,072,439						
Restricted	1,056,279	-	1,056,279						
Unrestricted	(3,012,607)	10,362,440	7,349,833						
Total Net Position	\$ 9,493,587	\$ 56,984,964	\$ 66,478,551						

NET POSITION - JUNE 30, 2019									
	Governmental Activities	Business-type Activities	Total Activities						
ASSETS									
Current and Other Assets	\$ 5,274,311	\$ 13,059,636	\$ 18,333,947						
Capital Assets	9,405,851	56,269,092	65,674,943						
Total Assets	14,680,162	69,328,728	84,008,890						
DEFERRED OUTFLOWS OF RESOURCES	244,909	-	244,909						
LIABILITIES									
Noncurrent Liabilities	4,127,439	8,763,495	12,890,934						
Other Liabilities	619,694	1,959,530	2,579,224						
Total Liabilities	4,747,133	10,723,025	15,470,158						
DEFERRED INFLOWS OF RESOURCES	1,134,121	14,424	1,148,545						
NET POSITION									
Net Investment in Capital Assets	9,405,851	46,672,851	56,078,702						
Restricted	1,103,679	-	1,103,679						
Unrestricted	(1,465,713)	11,918,428	10,452,715						
Total Net Position	\$ 9,043,817	\$ 58,591,279	\$ 67,635,096						

The Town's assets and deferred outflows exceeded its liabilities and deferred inflows at the close of the 2020 fiscal year by \$66.5 million. Approximately \$58.1 million of the Town's net position reflect its investment in capital assets, (e.g., land, buildings, improvements, vehicles, furniture and equipment, infrastructure). The Town uses these capital assets to provide services to citizens. Consequently, these assets are not available for future spending.

Changes in Net Position

The following tables present a summary of the changes in net position for governmental and business-type activities for the years ending June 30, 2020 and 2019, respectively.

	nanges in Net Position Year Ending June 30, 2020

Net Position - Beginning of Year, as Restated		9,188,143		59,566,133		68,754,276		
NET POSITION - END OF YEAR	\$	9,043,817	\$	58,591,279	\$	67,635,096		

The Town's total revenues for the year ended June 30, 2020 were \$21.8 million, an increase of approximately \$500,000. The majority of the overall increase, \$856,000, was attributable to an increase in program grants and contributions with revenue decreases of \$336,000 and \$55,000 in general revenues and charges for services, respectively.

Governmental Activities

General revenues for the governmental activities were \$10.5 million, while total expenses, net of charges for services and grants and contributions, were \$10.0 million.

Total general revenues from governmental activities decreased by \$221,000 and total governmental activities net expenses decreased by \$816,000. The majority of the overall revenue decrease, \$120,000, was due to a decrease in property taxes along with a decrease of \$118,000 in investment earnings, combined with an increase of \$17,000 state shared income tax.

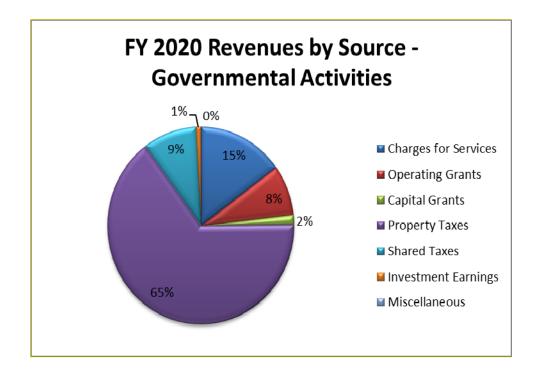

The \$816,000 net expense decrease was attributable to program revenue increases of approximately \$1.0 million and total expenditure increases of \$217,000. Charges for services increased by \$177,000 while operating grants and contributions increased by \$856,000. Expenditures in General Government increased by \$242,000 and Public Safety expenditures increased by \$33,000 while Recreation and Culture decreased by \$35,000, Public Works decreased by \$21,000 and Interest on Long-Term Debt decreased \$2,000.

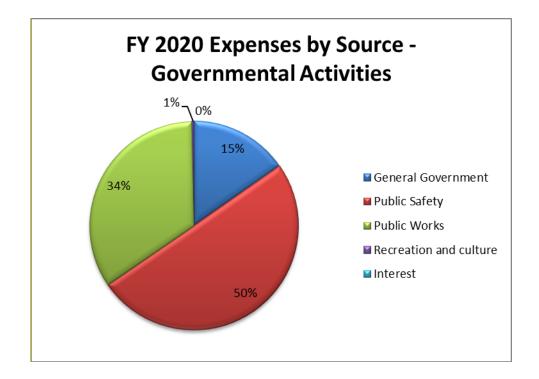

Business-Type Activities

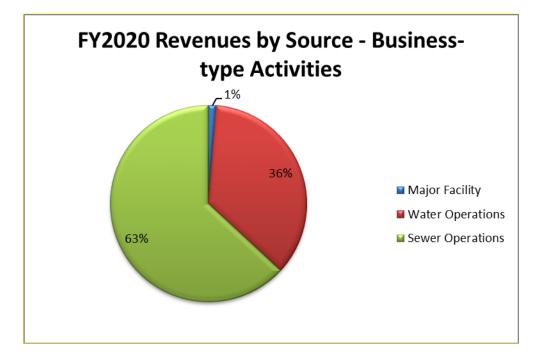

Total revenues for business-type activities decreased by \$233,000, while expenses increased by \$369,000. The decreased total revenue was entirely due to a decrease in charges for services as grants and contributions were unchanged.

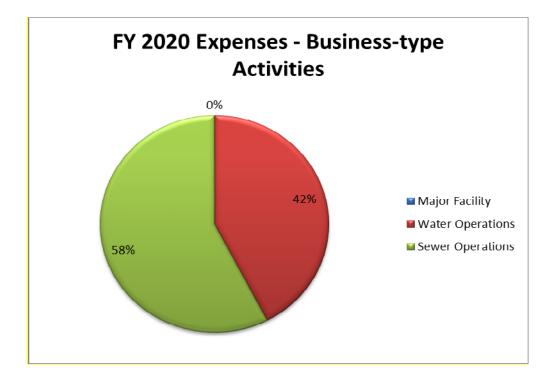

The \$369,000 increase, or 4.0%, in expenses was a result of a \$207,000 increase in the water fund, a \$166,000 increase in the sewer fund, and a \$4,000 decrease in the major facility fund.

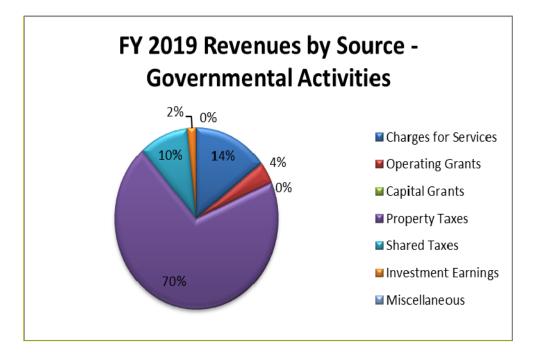

The following is a graphical presentation of the Town's revenues and expenses for the years ending June 30, 2020 and 2019.

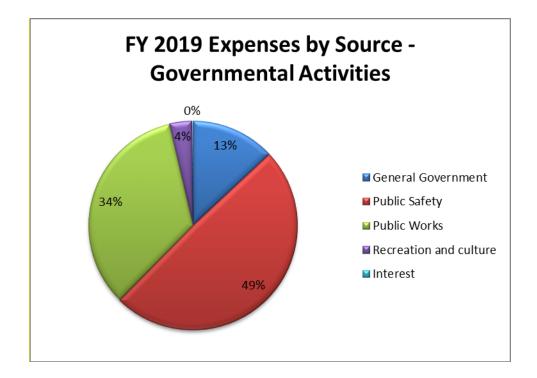

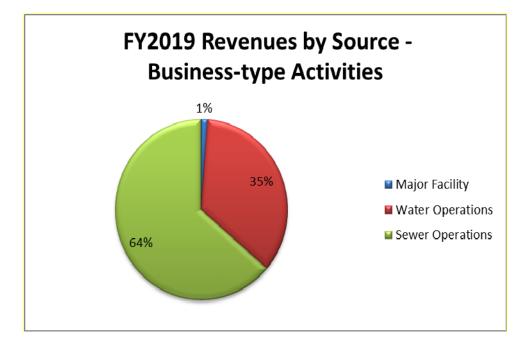

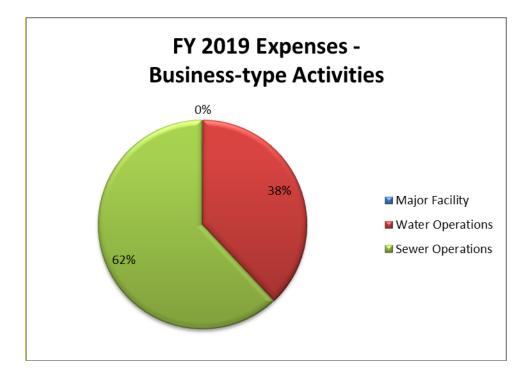

The following tables present the costs and program revenues of each of the Town's activities and capital outlays for the years ending June 30, 2020 and 2019, respectively. The tables also show each activity's net cost (total cost less fees generated by the activities and program specific intergovernmental aid). The net cost shows the financial burden placed upon local taxpayers for each of these functions.

Business-Type Activities	\$ 22,481,435	\$ 10,301,589	<u>\$ 12,179,846</u>

The cost of governmental activities this year was \$13.5 million, a \$217,000, or 1.6%, increase over FY19. General Government increased by \$242,000, largely the result of storm damage and roof repairs of \$181,000 in Municipal Buildings, a \$57,000 increase in Community Donations for a downtown façade grant, and a \$39,000 increase in the Planning Department for engineering review fees primarily for the proposed Southfields development. Those increases were offset by a decrease in salary and related fringe benefits of \$64,000 for unfilled positions in Planning and Municipal Buildings. Recreation and Culture decreased by \$35,000, or 7.8%, primarily due to the suspension of activities due to the COVID virus. Public Safety, Public Works, and Interest on Long-Term Debt collectively increased less than \$10,000. Some of the cost of government activities was paid for by those who directly benefited from the programs (\$2.1 million) and other governments and organizations that subsidized certain programs with grants and contributions (\$1.4 million). Taxpayers paid the remaining net cost of services in the amount of \$10.0 million.

The total cost of business-type activities this year was \$9.6 million, an increase of \$369,000, or 4.0%, due to increases of \$207,000 in the Water Fund, \$167,000 in the Sewer Fund, and a decrease \$4,000 in the Major Facility Fund. The increase in the Water Fund was the result of increases of \$104,000 in the purchase of water meters as the Town continues to upgrade its water meters and \$92,000 in the contracted operations and maintenance of the water treatment and distribution systems. The increase in the Sewer Fund was primarily the result of a \$123,000 increase in the contracted operations and maintenance of the water treatment plant. Additionally, \$23,000 was expended for a study to expand the sewer plant.

The cost of the activities in the Water and Sewer Funds were primarily paid for by charges for services and grants. Additionally, interest earnings and miscellaneous income were used to supplement charges for services. In the Water Fund, expenses exceeded charges for services and capital grants and contributions by \$1.1 million. In the Sewer Fund, expenses exceeded charges for services and capital grants and contributions by \$960,000. The Major Facility Fund charges for services were greater than expenses by \$62,000.

Financial Analysis of the Town's Funds

At year-end, the General Fund reported a total fund balance of \$1.6 million, a decrease from the previous year's \$3.8 million. This \$2.2 million decrease was the direct result of the borrowing from the Sewer fund for the construction of the Neighborhood Community Center.

Proprietary Funds Net Position decreased by \$1.7 million. This was the net result of a \$62,000 operating income in the Major Facility Fund, a \$905,000 operating loss in the Water Fund, and a \$853,000 operating loss in the Sewer Fund. Investment earnings plus capital grant contributions were \$198,000, while interest expense was \$108,000.

General Fund Budgetary Highlights

Actual revenues were \$1.3 million, or 7.5% less than the final budgeted amount primarily due to negative variances of \$610,300 in total Miscellaneous Revenue, \$404,800 in Total Taxes and Utility Fees, and \$257,400 in total Intergovernmental Revenue. The total Miscellaneous Revenue negative variance of \$ 610,300 was primarily due to the \$720,000 negative variance in the loan from the Sewer fund, as the Neighborhood Community Center project was not yet completed at year end. Additionally, a \$37,000 negative variance in interest income and a positive variance of \$147,000 in other miscellaneous revenues, the majority of which was for the sale of two real properties. The \$404,800 negative variance in total Taxes and Utility Fees was the primarily due to a negative variance of \$691,000 in Ordinary Business Corporation as booked receivables had not been received within the required 60 day period and a positive variance of \$291,000 in Local Income Tax.

Actual expenditures were \$1.8 million, or 9.9%, less than the final budgeted amount. Each expenditure category had a positive variance. The \$706,000 positive variance in total General Government was attributable to \$560,000 in General Services capital savings due to the Neighborhood Community Center's full amount being budgeted but not completed by year end combined with a \$78,000 savings in Finance and Accounting as a new financial software package was included in the budget but was not purchased by year end and \$33,000 in Personnel was mainly due to a savings of \$23,000 in professional services for legal fees. The positive variance of \$538,000 in total Public Safety was due to police patrol salary and fringe benefit savings of \$514,000 primarily from various positions being unfilled during the year and a \$21,000 in building inspection savings in various categories. Total Public Works had a positive variance of \$461,000 attributable to \$151,000 in salary and fringe benefit savings from positions budgeted but not filled during the year combined with positive variances of \$94,000 for storm pond maintenance projects that were not completed, \$77,000 for contracted services as the recycling center composting project came in substantially less than budgeted, \$41,000 in engineering, and \$39,000 in curbs, gutters and sidewalks. The remaining positive variance, \$67,000, was in Recreation and Culture due to multiple programs being cancelled due to COVID restrictions.

During the year, there was a \$791,500 increase in appropriations between the original and final amended budget. The following are the main supplemental appropriations:

- \$252,985 to recognize the balance of the \$800,000 Community Development Block Grant for the construction of the Neighborhood Community Center.
- \$210,000 from the State of Maryland Community Parks and Playgrounds program for the upgrade to the lights at the Meadow Park football field.
- \$143,763 reduction in Debt Service as the loan for vehicle and related equipment was not closed on until June, 2020 thus requiring no fiscal year 2020 debt service.
- \$140,041 increase to road restoration expense from Highway User Revenue restricted fund balance.
- \$124,883 to recognize insurance proceeds for the damages to the municipal building from the August, 2019 storm event.
- \$115,277 (\$110,277 CDBG and \$5,000 from Elkton Alliance) for the purpose of the completion of the Town Square ADA project.
- \$61,264 increase to Federal Grant Revenue from the Community Legacy Grant program for improvements of Elkton downtown business facades.
- Various other increases in appropriations totaling \$30,813.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The Town's capital assets (net of accumulated depreciation) for its governmental and business-type activities as of June 30, 2020, amount to \$67.2 million. These capital assets include land, buildings, machinery and equipment (including vehicles), infrastructure (including park facilities, roads, highways and bridges) and construction in progress. The total increase in the Town's capital assets for the current fiscal year was 2.3%, a 28.7% increase for governmental activities, and a 2.1% decrease for business-type activities.

The following table presents capital assets (net of accumulated depreciation) by category for fiscal years ending June 30, 2020 and 2019, respectively:

	Town of Elkton's Capital Assets (Net of Depreciation)

Major capital asset events during the fiscal year ending June 30, 2020 included the following:

In the Town's governmental activities:

- \$3,078,578 for construction of the Neighborhood Community Center.
- \$207,195 was spent to upgrade the Meadow Park football field lights.
- Engineering and construction of Town Square ADA project costing \$122,552.
- 2 Trucks purchased for public works costing \$75,175.
- Depreciation expense was \$870,309 for the year.

In the Town's business-type activities:

- \$369,840 for 8 generators.
- \$208,287 to purchase a 5 ton truck, an F350 truck and a mini excavator.
- Engineering for the Route 279 water main project cost \$29,860.
- Purchased AMI Base Station for the Walnut Hill water tower.
- Depreciation expense was \$1,812,414 for the year.

Additional information on the Town's capital assets can be found in Note 7 on pages 44-45 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- The Town is required, by Charter, to have a balanced budget each fiscal year and has always complied with this requirement. Annually, the Town develops and updates financial models for all of its major funds, which enables the Town to evaluate both short and long-term implications of proposed operational and capital decisions regarding Town finances.
- The fiscal year 2021 budget for the Town's only governmental fund, the General Fund, was adopted at \$1,420,001 less than the fiscal year 2020 final budget.
- For fiscal year 2021, the Town adopted \$0.6356 per \$100.00 of assessed value as the real property tax rate, \$0.0163 greater than the constant yield tax rate, generating \$193,506 additional revenue for fiscal year 2021. The Town adopted \$1.21 per \$100.00 of assessed value as the business personal property tax rate, the same as fiscal year 2020.
- The water and sewer rates were unchanged for fiscal year 2021.

CONTACTING THE TOWN'S FINANCIAL MANAGEMENT

This financial report is designed to provide citizens, taxpayers, customers and creditors with a general overview of the Town's finances, and to show the Town's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the Finance Department, ATTENTION: Finance Director, at 100 Railroad Avenue, Elkton, Maryland 21921, Telephone 410.398.4170.

TOWN OF ELKTON, MARYLAND RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION JUNE 30, 2020

Amounts reported for governmental activities in the Statement of Net Position are different because:

Total Fund Balances - Governmental Funds	\$ 1,627,016
Capital assets used in governmental activities are not financial resources, and therefore, are not reported as assets in governmental funds. The cost of these assets is \$34,274,776, and the accumulated depreciation is \$22,168,861.	12,105,915
Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds since they are not available to pay for current-period expenditures.	(1,155,173)
Net pension obligations are not due and payable in the current period and, therefore, are not reported in the funds.	(2,654,877)
Deferred outflows of resources related to pensions are applicable to future periods and, therefore, are not reported in the funds.	529,836
Net OPEB are not due and payable in the current period and, therefore, are not reported in the funds.	(856,084)
Deferred inflows of resources related to OPEB and Pensions are applicable to future periods and, therefore, are not reported in the funds.	(1,573,291)
Certain tax receivables are not available to pay for current period expenditures and, therefore, are reported as unavailable revenue in the funds.	 1,470,245
Net Position of Governmental Activities	\$ 9,493,587

TOWN OF ELKTON, MARYLAND RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2020

Amounts reported for governmental activities in the Statement of Activities are different because:

Total Net Change in Fund Balances - Governmental Funds	\$ (2,155,089)
Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated lives as depreciation expense. This is the amount by which capital outlay (\$3,595,374) exceeds depreciation expense (\$870,309) and disposals (\$25,001).	2,700,064
In the Statement of Activities, compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for compensated absences are measured by the amount of financial resources used (essentially, the amounts actually paid or expected to be paid within one year). This amount represents the net increase in compensated absences liability.	(33,113)
Long-term debt proceeds are an revenue in the governmental funds, but the proceeds are recorded as long-term liabilities in the Statement of Net Position. This is the amount of long-term debt proceeds during 2020.	(656,000)
Interest expense in the Statement of Activities differs from the amount reported in governmental funds due to the net increase in accrued interest.	884
Under the modified accrual basis of accounting, revenues are not recognized unless they are deemed "available" to finance current expenditures. Accrual-basis recognition is not limited by availability, so certain revenues need to be reduced by the amounts that were unavailable at the beginning of the year and increased by the amounts that were unavailable at the end of the year. This adjustment records a net increase in "unavailable" revenues at the end of the year over the amount at the beginning of the year.	596,849
Governmental funds report Town pension contributions as expenditures. However, in the Statement of Activities, the cost of pension benefits earned net of employee contributions is reported as pension expense.	61,983
OPEB expenses reported in the Statement of Activities do not require the use of current financial resources and are not reported as expenditures in governmental funds.	 (65,808)
Change in Net Position of Governmental Activities	\$ 449,770

TOWN OF ELKTON, MARYLAND NOTES TO FINANCIAL STATEMENTS JUNE 30, 2020

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Town of Elkton (the Town) have been prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting policies of the Town are described below. These policies should be recognized by the reader as integral to the preparation and use of the accompanying basic financial statements.

Reporting Entity

The Town was incorporated in 1787 with its legal authority derived from Chapter 310, Section 2 of the Annotated Code of Maryland. The Town is to be construed to mean both the Town and its inhabitants. Since inception, the Town has operated under the Mayor - Council form of government. Services provided include safety, highways and streets, sanitation, recreation, public improvement, planning and zoning, water and sewer and general administrative services.

For financial reporting purposes, in conformance with U.S. GAAP, the reporting entity includes the Mayor and Town Council, the primary government and the following fiduciary funds:

Town of Elkton Defined Contribution Plan: This pension plan is a defined contribution pension plan established by the Town to provide benefits at retirement to employees of the Town Council who are not eligible to participate in the Police Pension Plan.

Town of Elkton Police Pension Plan: This pension plan is a defined benefit pension plan established by the Town to provide benefits at retirement to sworn officers of the Town Council.

The Town evaluates whether there are any entities that should be reported as a component unit under GASB Statement Nos. 39 and 61. The Town has concluded there are no component units as defined by U.S. GAAP.

Government-Wide and Fund Financial Statements

The statement of net position and the statement of activities report information on all of the nonfiduciary activities of the Town. Eliminations have been made to remove the effect of inter-fund activity from these statements. Governmental activities are those which are supported by taxes and intergovernmental revenues, whereas business-type activities are those supported through customer service charges. The Town has three business-type funds: major facility, water, and sewer.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the Town's governmental activities. Direct expenses are those specifically associated with a program or function. Program revenues include charges for services and grants and contributions restricted to the capital or operational requirements of specific programs or functions. Revenues that are not classified as program revenues, such as taxes, are reported as general revenues.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government-Wide and Fund Financial Statements (Continued)

Separate financial statements are shown for governmental funds and fiduciary funds, even though fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accounting and financial reporting is determined by its measurement focus. Government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flow. Property taxes are recognized in the year of levy and grants are recognized when all eligibility requirements are met. For pension trust funds, employee and employer contributions are recognized as revenues in the period in which employee services are performed.

Governmental fund statements are presented using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e. when they become both measurable and available). Measurable means the amount of the transaction that can be determined and available means collected within 60 days of the year-end. Expenditures are recorded when the related liability is incurred as in the accrual basis of accounting. However, principal and interest on long-term debt and expenditures for compensated absences are recorded when the payments are due.

Those revenues susceptible to accrual are property taxes, taxes collected by the state and County on behalf of the Town, franchise taxes, revenues from other agencies, interest revenue, and charges for services. Fines and forfeitures, licenses, permits, penalties and interest (on property taxes) and other revenues become measurable and available when cash is received by the Town and are recognized as revenue at that time.

The Town has one major governmental fund, the general fund. It is used to account for the normal recurring activities of the Town which include general government, public safety, public works, and recreation and culture. These activities are financed primarily by property taxes, other taxes, service charges, and grants from other governmental units. The Town does not have any other governmental funds.

Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful for sound financial administration. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses result from providing services and delivering goods in connection with the fund's principal ongoing operations such as charges to customers for sales and services and expenses such as salaries, product costs, administrative expenses, and depreciation. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

<u>Measurement Focus</u>, <u>Basis of Accounting and Financial Statement Presentation</u> (Continued)

The Town has three major proprietary funds. The Water Fund operates the water treatment plants and distribution system. The Sewer Fund operates the sewage treatment plant, pumping stations and collection system. The Major Facility Fund accounts for the capital activities of the Water and Sewer Funds.

The Town has two pension trust funds, the Town of Elkton Defined Contribution Plan and the Town of Elkton Police Pension Plan. As fiduciary funds, these pension funds are used to account for assets held on behalf of outside parties under the terms of a formal trust agreement. Plan financial statements are prepared using the accrual basis of accounting. Plan member contributions are recorded during the period in which they are due. Employer contributions to the plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are made on a long-term basis, investing in various securities which are subject to interest rate, market, and credit risks.

The effect of interfund activity has been eliminated from the government-wide financial statements except for charges between the Water, Sewer, and Major Facility Fund and the General Fund for direct services. Elimination of these charges would distort the direct costs and program revenues reported for the various services. Amounts reported as program revenues include charges to customers for goods and services, operating grants and contributions, and capital grants. Internally dedicated resources are reported as general revenues rather than program revenues. General revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as they are needed.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Assets, Liabilities, and Net Position or Fund Balance

Equity in Pooled Cash, Cash Equivalents, and Investments

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date of three months or less at the time of purchase. Cash deposits of the Town are made in accordance with the Annotated Code of Maryland (the Code), which requires depositories to give security in the form of collateral as provided for in the Code, for the safekeeping and forthcoming, when required, of these deposits.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Assets, Liabilities, and Net Position or Fund Balance (Continued)

Equity in Pooled Cash, Cash Equivalents, and Investments (Continued)

Excess funds are also permitted to be invested either in bonds or other obligations for the payment of principal and interest, of which the full faith and credit of the United States of America are pledged, obligations of Federal government agencies issued pursuant to acts of Congress, or in the local government investment pool created by the state of Maryland.

For the purposes of the statement of cash flows, the Town considers all highly-liquid investments (including restricted assets) with an original maturity date of three-months or less at the time of purchase to be cash equivalents. Cash resources of each of the individual funds, except the pension funds and cash held by fiscal agents or required to be segregated by law or policy, are combined to form a pool of cash and investments to maximize interest earnings. Income from pooled investments is allocated to funds on the basis of their equity in pooled cash.

Receivables

Property taxes are reported at their estimated realizable value. The following summarizes the property tax calendar:

	Real Property	Personal and Corporate
Assessment Toll Validated	Dec. 31	Jan. 1
Tax Rate Ordinance Approved	June 1	June 30
Beginning of Fiscal Year for which		
Taxes have been Levied	July 1	July 1
Tax Bills Rendered and Due	July 1–on County bill	Various
Owner-Occupied Residential	July 1 and Jan. 1	N/A
Property Taxes Payable:		
Delinquent	Oct. 1, Feb. 1	After 90 days
Terms	60 days	90 days
Delinquent Interest Rate (Annual)	18%	18%

Information presented is for "full year" levy. "Half year" levy dates are each six months later, and relate to new construction in the first six months of the fiscal year. A lien is attached to property on the billing date, becomes delinquent October 1, and is sold at tax sale by the end of 18 months.

Proprietary fund receivables are recorded as revenue when earned. The receivables of proprietary funds include billing for residential and commercial customers utilizing the Town's water and sewer services. For fiscal year 2020, the Town's water and sewer system customer base included a total of 6,988 water and 6,911 sewer accounts. All customers are billed on a quarterly basis with payment due in full within thirty days from the date of the billing. Delinquent accounts are subject to disconnection in addition to a \$25.00 service charge. Water and sewer rates are set by ordinance passed by the Mayor and Commissioners of the Town when deemed necessary.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Assets, Liabilities, and Net Position or Fund Balance (Continued)

Receivables (Continued)

Allowances for uncollectible accounts are maintained on all types of receivables that historically experience bad debt. The allowance is determined by management based on historical collection trends. Receivables are shown net of such an allowance for uncollectibles. Real property taxes are generally fully collectible.

Capital Assets

Capital assets, which include property, plant and equipment and infrastructure such as roads, storm drains and pipe systems, are reported in the governmental activities or business-type activities columns in the government-wide financial statements. The Town defines capital assets as those which have an individual acquisition cost or donated value of at least \$1,000, and an estimated useful life of at least one year. Such assets are valued at historical or estimated historical cost if actual is not available. Donated assets are stated at their acquisition value at the date of donation. The cost of normal maintenance and repairs that do not add value or extend asset lives are not capitalized. Land is determined to have an inexhaustible life and is not subject to depreciation.

Expenditures for major assets and improvements are capitalized as the assets are acquired or constructed. Exhaustible capital assets are depreciated, which is charged as an expense against their operations. Accumulated depreciation is reported in the statement of net position. Depreciation has been provided over the estimated useful lives using the straight-line method.

Estimated useful lives are as follows:

<u>Category</u>	Years
Building	20 to 50
Plant, Mains and Improvements, and	
Improvements other than Buildings	10 to 75
Equipment	3 to 10

Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net position. In the governmental fund financial statements, the face amount of newly issued debt is reported as other financing sources, and the amount of principal repayment is reported as an expenditure.

<u>Pension Benefits</u> – The Town provides retirement benefits to retired employees through the state of Maryland plan and their own plan. See Note 10 for a full description of the benefits.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Assets, Liabilities, and Net Position or Fund Balance (Continued)

Long-Term Obligations (Continued)

<u>Other Postemployment Benefits (OPEB)</u> – The Town provides health care benefits to retired employees and eligible retiree's spouses. See Note 11 for a full description of the benefits. There has been no OPEB Trust established as of June 30, 2020.

Compensated Absences

Vested or accumulated vacation of governmental funds is accrued when earned by employees and an expense and liability are recorded in governmental activities on the government-wide financial statements. Vested or accumulated vacation of business-type funds is recorded as an expense and a liability of the fund that will pay it. No liability is recorded for nonvesting accumulated rights to receive sick pay benefits as the Town does not pay these amounts when employees separate from service.

Town ordinance provides that full-time employees may accumulate up to a maximum of twenty-four (24) days annual leave based upon years of service, and upon termination will be paid for all accumulated leave not to exceed that amount. The accrual is included in "Noncurrent Liabilities" in the government-wide statements. A liability for vacation pay is recorded in the governmental fund financial statements only if it has matured (i.e., unused reimbursable leave still outstanding following an employee's resignation or retirement).

Deferred Inflows and Outflows of Resources

A deferred inflow of resources represents an acquisition of net position that applies to a future period, and so, will not be recognized as an inflow of resources (revenue) until the future period. For government-mandated and voluntary non-exchange transactions, a deferred inflow is reported when resources are received before time requirements are met. The Town recognizes deferred inflows at the entity-wide level for the deferred flows related to pension and OPEB. At the fund level deferred inflows are recognized for tax revenues not meeting the availability criteria.

A deferred outflow of resources represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expenditure) until the future period. The Town recognizes deferred outflows at the entity-wide level for the deferred flows related to pension and OPEB.

Net Position Reporting

The government-wide and proprietary fund type financial statements utilize a net position presentation. Net position is the difference between assets and deferred outflows, less liabilities and deferred inflows. Net position is categorized as net investment in capital assets, restricted, and unrestricted, and are described as follows:

<u>Net Investment in Capital Assets</u> – This category groups all capital assets including infrastructure into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributed to the acquisition, construction, or improvement of these assets reduce the balance in this category.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Assets, Liabilities, and Net Position or Fund Balance (Continued)

Net Position Reporting (Continued)

<u>Restricted Net Position</u> – This category presents the balance of net position for which external restrictions are imposed by creditors, grantors, enabling legislation, laws and regulations, and other governments.

<u>Unrestricted Net Position</u> – This category presents the net position of the Town not included elsewhere.

Fund Balance Reporting

Fund balance classifications for governmental funds are based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. The fund balance categories and descriptions are as follows:

<u>Nonspendable</u> – amounts that cannot be spent because they are either not in spendable form or they are legally required to be maintained intact such as inventory, prepaid expenses, or other assets.

<u>Restricted</u> – amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation, or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

<u>Committed</u> – amounts that can only be used for specific purposes determined by a formal action of the Commissioners, who are the highest level of decision-making authority for the Town. Commitments may be established, modified, or rescinded only through resolutions approved by the Commissioners.

<u>Assigned</u> – amounts that do not meet the criteria to be classified as restricted or committed, but that are intended to be used for specific purposes determined by a formal action of the Commissioners, such as adopting the annual budget.

<u>Unassigned</u> – all other spendable amounts.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, and then unrestricted resources as they are needed. Furthermore, the Town will apply expenditures against committed, then assigned, and then unassigned fund balances.

NOTE 2 CASH AND TEMPORARY INVESTMENTS

Deposits

At year-end, the carrying amount of the Town deposits (including petty cash of \$115) was \$5,951,700 and the bank balance was \$6,013,792. Custodial credit risk is the risk that in the event of a bank failure, the Town's deposits may not be returned to it. The Town follows the state-mandated deposit policy for custodial credit risk requiring all deposits to be collateralized for amounts in excess of FDIC limits, with collateral whose market value is equal to at least 102% of the deposits. The deposits of the Town were not exposed to custodial credit risk at June 30, 2020.

Investments

At June 30, 2020, the Town's fixed income investment balances by type, rating, and maturity were as follows:

				Average Maturity
Investment Type		Fair Value	Rating	(Years)*
Fixed Income Mutual Funds:				
Core Plus Fund	**	\$ 23,919	BBB	8.31

Total Cash and Cash Equivalents Per	
Statement of Net Position	\$ 11,836,306

NOTE 2 CASH AND TEMPORARY INVESTMENTS (CONTINUED)

Investments (Continued)

Interest Rate Risk

Fair value of fixed income investments fluctuates with interest rates, and increasing interest rates could cause fair value to decline below original cost. To limit the Town's exposure to fair value losses arising from increasing interest rates, the Town's investment policy limits the term of average maturities to remain sufficiently liquid to enable the Town to meet all operating requirements which might be reasonably anticipated. In the fiduciary funds, mutual funds are used to match the cash flow of liabilities. Town management believes the liquidity in the portfolio is adequate to meet cash flow requirements and to preclude the Town from having to sell investments below original cost for that purpose. The investments at June 30, 2020 met the Town investment policy as of that date.

Credit Risk

Town investment policy permits investments in the following types of investments as authorized by the state of Maryland: U.S. treasury obligations, U.S. agency obligations, repurchase agreements under a master repurchase agreement, certificates of deposit which are collateralized through a Maryland commercial bank, and the Maryland Local Government Investment Pool (MLGIP). The MLGIP was established in 1982 under Article 95 Section 22G of the Annotated Code of Maryland and is rated AAAm by Standard and Poors, their highest rating for money market funds. Unit value is computed using the amortized cost method. In addition, the net asset value of the pool, marked-to-market, is calculated and maintained on a weekly basis to ensure a \$1.00 per unit constant value.

Concentration of Credit Risk

The Town has investments in two issuers that are greater than 5% of the Town's total investments. This includes the investments in the Nationwide Fixed Account and the MLGIP. The investments in the Nationwide Fixed Account are participant directed investments of a defined contribution plan.

Investment Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of failure of the counterparty, the Town will not be able to recover all or a portion of the value of its investments or collateral securities that are in the possession of an outside party. At June 30, 2020, all of the Town investments were insured or registered, or for which the securities were held by the Town or its agent in the Town's name or were invested in the MLGIP or mutual funds.

Foreign Currency Risk

The Town's investment policy does not allow for investments denominated in foreign currencies. The Town does not hold any such investments.

NOTE 3 FAIR VALUE

The Town categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The Town's assets with recurring fair value measurements as of June 30, 2020 consist of the following mutual funds valued using quoted market prices (Level 1 inputs) and funds maintained and valued by an insurance company (Level 2 inputs):

	Fair Value M	leasur	ements		
		Level 1		Level 2	 Total
Fixed Income Mutual Funds	\$	132,622	\$	4,786,377	\$ 4,918,999
Equity Mutual Funds		6,130,300		91,482	6,221,782

NOTE 4 RECEIVABLES

Summary of Receivables

Receivables as of year-end for the Town's funds, individually and in the aggregate, including applicable allowances for uncollectible accounts, are as follows:

	Business-Type Activities										
	Go	overnmental		Major							
		Activities		Facility	lity Water		Sewer		Total		Total
Taxes	\$	1,510,459	\$	-	\$	-	\$	-	\$	-	\$ 1,510,459
Accounts		491,476		2,576		594,935		998,638		1,596,149	2,087,625
Interest		4,511		-		-		-		-	4,511
Allowance for											
Uncollectibles		(605,270)		-		-		-		-	(605,270)
Net Receivables	\$	1,401,176	\$	2,576	\$	594,935	\$	998,638	\$	1,596,149	\$ 2,997,325

Governmental funds report deferred inflows in relation to receivables for revenues that are not considered to be available to liquidate liabilities of the current period such as property taxes not collected within sixty (60) days after fiscal year-end. Deferred revenue may result from rental and program advances, franchise fees, and similar prepayments received by the Town, grant revenue received prior to the incurrence of qualifying expenditures, and governmental fund nonexchange contributions which did not meet the GASB Statement No. 33 time restriction.

NOTE 4 RECEIVABLES (CONTINUED)

Summary of Receivables (Continued)

Deferred inflows of resources for the general fund at June 30, 2020 consisted solely of items deemed unavailable, and is summarized as follows:

Business/Corporate Property Taxes	\$ 741,996
Real Property Taxes	71,034
Utilities/Railroad	148,559
Traders Taxes	3,831
Income Taxes	499,825
Grants	 5,000
Total	\$ 1,470,245

NOTE 5 DUE FROM OTHER GOVERNMENTS

The June 30, 2020 balance due from other governments is as follows:

	Governmental Activities		
State of Maryland

Total Business-Type Activities	\$ 1,812,414

NOTE 8 LONG-TERM DEBT

The following is a summary of changes that occurred in the Town's long-term liabilities reported for governmental activities and business-type activities for the year ended June 30, 2020:

	 	Beginning Balance	Increases Decreases		Ending Balance		Due Within One Year		
GOVERNMENTAL ACTIVITIES									
Loans	\$	-	\$	656,000	\$ -	\$	656,000	\$	124,279
Compensated Absences		466,060		33,113	-		499,173		-
Total Governmental Activities	\$	466,060	\$	689,113	\$ -	\$	1,155,173	\$	124,279
BUSINESS-TYPE ACTIVITIES									
Sewer Facility Loan #1	\$	7,174,317	\$	-	\$ 784,477	\$	6,389,840	\$	787,615
Sewer Facility Loan #2		2,421,924		-	 325,395		2,096,529		328,647
Subtotal		9,596,241		-	1,109,872		8,486,369		1,116,262
Compensated Absences		82,088		9,264	 -		91,352		-
Total Business-Type Activities	\$	9,678,329	\$	9,264	\$ 1,109,872	\$	8,577,721	\$	1,116,262

For compensated absences, the general fund normally liquidates 100% of the governmental activities liability, and the sewer and water fund normally liquidate 100% of the business-type activities liability.

Governmental Activities

In June of 2020, the Town entered into a loan for \$656,000 from a commercial bank. The loan had an interest rate of 2.64%, and matures in June 2025. The loan repayment schedule required monthly payments of principal and interest of \$11,694. As of June 30, 2020, the outstanding balance of the loan was \$656,000.

The future maturities of this loan is as follows.

Governmental Fund - \$656,000							
<u>Year Ending June 30,</u>		Principal		nterest		Total	
2021	\$	124,282	\$	16,046	\$	140,328	
2022		127,650		12,678		140,328	
2023		131,108		9,220		140,328	
2024		134,651		5,677		140,328

Total	\$	656,000	\$	45,640	\$	701,640	

NOTE 8 LONG-TERM DEBT (CONTINUED)

Business-Type Activities

The Town has a \$15,600,000 revolving loan agreement with the Maryland Department of the Environment which has been entirely drawn, and \$6,389,840 remains outstanding at June 30, 2020. The loan has an interest rate of 0.4%, and a maturity date of February 2028.

Sewer Facility Upgrade - \$15,600,000							
<u>Year Ending June 30,</u>		Principal		Interest		Total	
2021	\$	787,615	\$	25,560	\$	813,175	
2022		790,765		22,408		813,173	
2023		793,928		19,246		813,174	
2024		797,104		16,070		813,174	
2025		800,292		12,882		813,174	
2026-2028		2,420,136		19,388		2,439,524	
Total	\$	6,389,840	\$	115,554	\$	6,505,394	

The Town has a \$6,422,000 revolving loan agreement with the Maryland Department of the Environment, of which \$5,795,474 has been drawn, and \$3,698,945 has been repaid. The amount outstanding at June 30, 2020 was \$2,096,529. The loan has an interest rate of 1%, and a maturity date of February 2027.

Sewer Facility Upgrade - \$6,422,000							
<u>Year Ending June 30,</u>	Principal			Interest		Total	
2021	\$	328,647	\$	24,219	\$	352,866	
2022		331,933		20,965		352,866	
2023		335,252		17,679		352,898	
2024		338,605		14,360		352,931	
2025		341,991		11,007		352,965	
2026-2027		420,101		11,822		431,923	
Total	\$	2,096,529	\$	100,052	\$	2,196,449	

Legal Debt Margin

The Town is subject to a legal debt margin of 5.6% of the total assessed value of taxable real and personal property. At June 30, 2020, that amount was \$55,207,000, and the outstanding debt subject to the limit was \$9,142,369, which is 16.6% of the total debt limit.

NOTE 9 FUND BALANCE

Fund balance at June 30, 2020 consisted of the following:

Unassigned		(1,058,201)		
Total Fund Balance	\$	1,627,016		

NOTE 10 RETIREMENT AND PENSION PLANS

State Retirement and Pension Systems of Maryland

Plan Description

The employees of the Town are covered by the Maryland State Retirement and Pension System (the System), which is a cost sharing employer public employee retirement system. While there are five retirement and pension systems under the System, employees of the Town are members of the Employees' Retirement and Pension Systems. The System was established by the State Personnel and Pensions Article of the Annotated Code of Maryland to provide retirement allowances and other benefits to state employees, teachers, police, judges, legislators, and employees of participating governmental units. The plans are administered by the State Retirement Agency. Responsibility for the System's administration and operation is vested in a 15-member board of trustees. The System issues a publicly available financial report that can be obtained at http://sra.maryland.gov.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the System and additions to/deductions from the System's fiduciary net position have been determined on the same basis as they are reported by the System. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 10 RETIREMENT AND PENSION PLANS (CONTINUED)

State Retirement and Pension Systems of Maryland (Continued)

Benefits Provided

The System provides retirement allowances and other benefits to employees of participating governmental units, among others. For individuals who became members of the Employees' Retirement and Pension Systems on or before June 30, 2011, retirement/pension allowances are computed using both the highest three years Average Final Compensation (AFC) and the actual number of years of accumulated creditable service. For individuals who become members of the Employees' Pension System on or after July 1, 2011, pension allowances are computed using both the highest five years AFC and the actual number of years of accumulated service. Various retirement options are available under each system which ultimately determines how a retirees' benefits allowance will be computed. Some of these options require actuarial reductions based on the retirees' and/or designated beneficiary's attained age and similar actuarial factors.

A member of the Employees' Retirement System is generally eligible for full retirement benefits upon the earlier of attaining age 60 or accumulating 30 years of creditable service regardless of age. The annual retirement allowance equals 1/55 (1.81%) of the member's average final compensation (AFC) multiplied by the number of years of accumulated creditable service.

A member of the Employees' Pension System on or before June 30, 2011 is eligible for full retirement benefits upon the earlier of attaining age 62, with specified years of eligibility service, or accumulating 30 years of eligibility service regardless of age. An individual who becomes a member of the Employees' Pension System on or after July 1, 2011, is eligible for full retirement benefits if the members' combined age and eligibility service equals at least 90 years or if the member is at least age 65 and has accrued at least 10 years of eligibility service.

For most individuals who retired from the Employees' Pension System on or before June 30, 2006, the annual pension allowance equals 1.2% of the members AFC, multiplied by the number of years of credible service accumulated prior to July 1, 1998, plus 1.4% of the members AFC, multiplied by the number of years of credible service accumulated subsequent to June 30, 1998. With certain exceptions, for individuals who are members of the Employees' Pension System on or after July 1, 2006, the annual pension allowance equals 1.2% of the member's AFC, multiplied by the number of years of credible service accumulated prior to July 1, 1998 plus 1.8% of the members AFC, multiplied by the number of years of credible service accumulated prior to July 1, 1998 plus 1.8% of the members AFC, multiplied by the number of years of credible service accumulated subsequent to June 30, 1998. Beginning on July 1, 2011, any new member of the Employees' Pension System shall earn an annual pension allowance equal to 1.5% of the member's AFC multiplied by the number of years of creditable service accumulated as a member of the Employees' Pension System.

NOTE 10 RETIREMENT AND PENSION PLANS (CONTINUED)

State Retirement and Pension Systems of Maryland (Continued)

Contributions

The Town and covered members are required by state statute to contribute to the System. Members of the Employees' Pension System are required to contribute 7% annually. Members of the Employees' Retirement System are required to contribute 5-7% annually, depending on the retirement option selected. The contribution requirements of the System members, as well as the state and participating governmental employers are established and may be amended by the board of trustees for the System.

The Town's contractually required contribution rate for the Employees' Retirement and Pension Systems for the year ended June 30, 2020, was 6.75% of annual payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The Town made its share of the required contributions during the year ended June 30, 2020 of \$7,030.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the Town reported a liability of \$62,887 for its proportionate share of the net pension liability of the System. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Town's proportion of the net pension liability was based on actual employer contributions billed to participating government units for the year ended June 30, 2019. The contributions were increased to adjust for differences between actuarial determined contributions and actual contributions by the state of Maryland. As of June 30, 2019, the Town's proportionate share was 0.0003049%, which is an increase of 0.0000162 from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the Town recognized pension expense of \$4,378. At June 30, 2020, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		ferred Itflows	_	eferred nflows
		esources	-	Resources
Changes in Assumptions	\$	1.009	\$	1,712
Net Difference Between Expected and Actual Experience	Ψ	-	Ψ	3,934
Net Difference Between Projected and Actual Earnings				
on Pension Plan Investments		3,518		-
Changes in Proportionate Share of Contributions		174		3
Net Difference Between Actual and Proportionate				
Share of Contributions		7,560		10,537
Town's Contributions Subsequent to Measurement Date		7,030		
Total	\$	19,291	\$	16,186

NOTE 10 RETIREMENT AND PENSION PLANS (CONTINUED)

State Retirement and Pension Systems of Maryland (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

\$7,030 reported as deferred outflows of resources related to pensions resulting from Town contributions subsequent to the measurement date will be recognized as a reduction in net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	Ar	nount
2021	\$	(4,378)
2022		(734)
2023		115
2024		1,031
2025		41
Thereafter		-

Actuarial Assumptions

The total pension liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60% general, 3.10% wage
Salary increases	3.10% to 11.60%, including inflation
Investment rate of return	7.40%

Mortality rates were based on Pub-2010 Mortality Tables with projected generational mortality improvements based on the MP-2018 fully generational mortality improvement scale.

The economic and demographic actuarial assumptions used in the June 30, 2019 valuation were adopted by the System's board of trustees based upon review of the System's experience study for the period 2014-2018, after completion of the June 30, 2018 valuations. Assumptions from the experience study including investment return, inflation, COLA increases, and the rates related to mortality, retirement, withdrawal, disability, and salary increase were adopted by the board for the first use in the actuarial valuation as of June 30, 2019. As a result, an investment return assumption of 7.40% and an inflation assumption of 2.60% were used for the June 30, 2019 valuation.

The long term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-range expected rate of return by weighting the expected future real rates by the target asset allocation percentage and by adding expected inflation.

NOTE 10 RETIREMENT AND PENSION PLANS (CONTINUED)

State Retirement and Pension Systems of Maryland (Continued)

Actuarial Assumptions (Continued)

Best estimates of geometric real rates of return were adopted by the board after considering input from the System's investment consultant(s) and actuary(s). For each major asset class that is included in the System's target asset allocation, these best estimates are summarized in the following table:

	Target	Long-Term Expected
Asset Class	Allocation	Real Rate of Return
Public Equity	37 %	6.30 %
Private Equity	13	7.50
Rate Sensitive	19	1.30
Credit Opportunity	9	3.90
Real Assets	14	4.50
Absolute Return	8	3.00
Total	100 %	

The above was the System's board of trustees adopted asset allocation policy and best estimate of geometric real rates for each major asset class as of June 30, 2019.

For the year ended June 30, 2019, the annual money-weighted rate of return on pension plan investments, net of the pension plan expense was 6.46%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Discount Rate

The single discount rate used to measure the total pension liability was 7.40%. This single discount rate was based on the expected rate of return on pension plan investments of 7.40%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents the Town's net pension liability, calculated using a single discount rate of 7.40%, as well as what the Town's net pension liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher:

	1% Decrease (6.40%)		 ent Discount e (7.40%)	1% Increase (8.40%)		
Town's Proportionate Share of the Net Pension Liability	\$	91,023	\$ 62,887	\$	39,454	

NOTE 10 RETIREMENT AND PENSION PLANS (CONTINUED)

State Retirement and Pension Systems of Maryland (Continued)

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued System's financial report.

Town Defined Contribution Plan

Description of Plan

The Town adopted the Town of Elkton Defined Contribution Plan (TEDCP) covering substantially all employees not participating in the state System effective for the 1999 fiscal year. At June 30, 2020, there were seventy (70) plan members from the Town. Plan members do not have the option to make voluntary contributions to TEDCP. Plan provisions are established, amended, and administered by the Mayor and Commissioners of the Town. The Town is required to contribute 8% of covered payroll of TEDCP participants. For the fiscal year ended June 30, 2020, actual contributions by the Town were \$253,096. TEDCP does not issue separate audited financial statements, as such, the net position as of June 30, 2020, and the changes in net position for the year ended June 30, 2020, are reflected in the statement of fiduciary net position and changes in fiduciary net position in the basic financial statements.

The condensed financial statement as of and for the year ended June 30, 2020 is as follows:

Statement of Plan Net Position

NOTE 10 RETIREMENT AND PENSION PLANS (CONTINUED)

Town Defined Benefit Plan

Description of Plan

On July 1, 2010, the Town began to administer the Town of Elkton Police Pension Plan (TEPPP), which is a single-employer defined benefit plan covering all sworn officers of the Town. At June 30, 2020, there were forty (40) plan members from the Town. Plan members are required to contribute 8% of their base salary. For the fiscal year ended June 30, 2020, actual contributions by the plan members were \$155,854. Plan provisions are established, amended, and administered by the Mayor and Commissioners of the Town. During 2020, the Town contributed the actuarially determined amount of \$301,292. TEPPP does not issue separate audited financial statements, and as such, the net position as of June 30, 2020, and the changes in net position for the year ended June 30, 2020, are reflected in the statement of fiduciary net position and changes in fiduciary net position in the basic financial statements. Employees are eligible to begin drawing their pension when they retire after 25 years of service or at age 60 with 10 years of service. The plan does not provide early retirement benefits. TEPPP has a tax-exempt status. TEPPP provides retirement and death benefits to plan members or the plan member's beneficiaries. Administrative costs of TEPPP are financed through investment earnings.

The most current actuarial valuation was completed as of July 1, 2019. The membership data related to the plan was as follows:

Retirees and Beneficiaries Currently Receiving Benefits	9
Terminated Plan Members Entitled to, but not yet Receiving Benefits	-
Active Plan Members	31
Total	40

Pension Plan Administration

The Mayor and Commissioners of the Town established the Town of Elkton Police Pension Plan (the Plan) with the adoption of Ordinance 7 – 2010 on August 18, 2010. Under Section 2.28.430, the ordinance further established a Retirement Plan Committee (the Committee) consisting of the Town Administrator, Town Finance Director, and representative of the Elkton Police Fraternal Order of Police Lodge 124.

NOTE 10 RETIREMENT AND PENSION PLANS (CONTINUED)

Town Defined Benefit Plan (Continued)

Pension Plan Administration (Continued)

The Committee has full power and authority to administer and operate the Plan in accordance with its terms and have full power and authority to deal with all persons in any matter directly connected with the Plan, including, but not limited to, investment advisors. The determination of the Committee on any matter pertaining to the Plan within the powers and discretion granted to it shall be final and conclusive.

Investment Policy

The Committee is responsible for administering the Investment Policy of the Plan and providing oversight for the management of the Plan's assets. As of June 30, 2015, the Mayor and Commissioners adopted a formal investment policy statement and an advisory agreement was entered into with T. Rowe Price Associates, Inc. Investments are measured at fair market value, which are generally based on quoted market prices. The money-weighted rate of return was 1.62% for the year ended June 30, 2020.

Asset Allocation Polic	cy .	
Asset Class	Range	Target
Equities	50-70%	60 %
Fixed Income	30-60%	40
Cash and Cash Equivalent	0-20%	N/A
Equity Sub-Class	Range	Target
Large-Cap Equity	50-75%	62.5 %
Mid-Cap	5-25%	15.0 %
Small Cap	5-15%	10.0 %
International	5-30%	12.5 %

The components of the net pension liability of the Plan as of June 30, 2020 (measurement date June 30, 2019) were are follows:

Total Pension Liability	\$ 10,644,311
Plan Fiduciary Net Position	 (8,052,321)
Net Pension Liability	\$ 2,591,990

Plan Fiduciary Net Position as a Percentage of the Total Pension Liability 75.65%

NOTE 10 RETIREMENT AND PENSION PLANS (CONTINUED)

Town Defined Benefit Plan (Continued)

<u>Investment Policy</u> Method and assumptions used to determine net pension liability were as follows:

Valuation Date Actuarial Cost Method Amortization Method	July 1, 2019 * Projected Unit Credit Level Percentage of Payroll
Amortization Period	Closed periods range from 13 to 20 years remaining as of the 2017 valuation
Asset Valuation Method Actuarial Assumptions	Market Value
Inflation	3.0%
Investment Rate of Return	7.00%, net of pension plan investment expense, including inflation
Projected Salary Increases	5.0%, including inflation
Cost of Living Adjustments	None assumed
Retirement Age	The earlier of 25 years of service or age 60 with 10 years of service
Mortality Rate	RP-2014 Healthy tables with Blue Collar adjustments and generational projection by MP-2015

*The total pension liability is based on the July 1, 2019 actuarial valuation rolled forward to June 30, 2020.

For the year ended June 30, 2020, the Town recognized pension expense of \$243,687.

The long-term expected rate of return on Plan investments was determined using a building-block method in which best-estimates of expected future real rates of return (expected returns, net of Plan investment expense and inflation) are developed for each asset class. This model assumes a 60% equity and 40% fixed income portfolio. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. This is then modified through a Monte-Carlo simulation process, by which a (downward) risk adjustment is applied to the baseline expected return.

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that Plan member contributions will be made at the current contribution rate and that the Town's contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate.

Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

NOTE 10 RETIREMENT AND PENSION PLANS (CONTINUED)

Town Defined Benefit Plan (Continued)

Discount Rate (Continued)

Therefore, the long-term expected rates of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Town of Elkton Police Pension Plan

Total Pension Liability	
Service Cost	\$ 315,203
Interest	692,065

The following presents the net pension liability of the Town, calculated using the discount rate of 7.00%, as well as what the Town's net pension liability would be if it were calculated using a discount rate that is 1.00% lower or 1.00% higher than the current rate:

	Current Discount		
	1% Decrease	Rate	1% Increase
	6.00%	7.00%	8.00%
Net Pension Liability	\$ 4,084,278	\$ 2,591,990	\$ 1,371,537

NOTE 10 RETIREMENT AND PENSION PLANS (CONTINUED)

Town Defined Benefit Plan (Continued)

Discount Rate (Continued)

At June 30, 2020, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	O	Deferred utflows of esources		Deferred Inflows of Resources
Net Difference Between Projected and Actual Earnings on Pension Plan Investments Change of Assumptions	\$	41,967 187,349	\$	-
Net Difference Between Expected and Actual Experience Total	\$	- 229,316	\$	1,045,017 1,045,017

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Endling June 30,</u>	_	Amount
2021	-	\$ (179,337)
2022		(125,204)
2023		(108,699)
2024		(125,285)
2025		(145,114)
Thereafter		(132,062)

NOTE 11 POSTEMPLOYMENT HEALTH CARE BENEFITS

General Information about the OPEB Plan

Plan Description

The plan provides a fixed dollar subsidy which depends on service.

	N	Monthly	
Years of Service	S	ubsidy	
10 to 14	\$	130	
15 to 19		150	
20 to 24		180	
More than 25		200	

Eligible employees who retire with less than ten (10) years of service are eligible to continue on the Town's health plan but must pay 100% of the premium. Retirees are allowed to continue on the Town's group health plan for a maximum of fifteen (15) years.

NOTE 11 POSTEMPLOYMENT HEALTH CARE BENEFITS (CONTINUED)

General Information about the OPEB Plan (Continued)

Plan Description (Continued)

To be eligible for the plan, an employee must satisfy one of the conditions below:

- 1. Continuously enrolled under the Town of Elkton's group insurance plan for at least four (4) years immediately preceding the date of retirement, and at least age 50; or
- 2. Reach age 62; or
- 3. Be a sworn law enforcement employee for the Town of Elkton for 25 years.

The Town allows continued health insurance coverage for an eligible retiree's spouse and dependents if the eligible retiree elects the additional coverage and pays the dependent premiums.

Employees Covered by Benefit Terms

At June 30, 2020, the following employees were covered by the benefit terms:

Inactive Employees or Beneficiaries Currently Receiving Benefit Payments	-
Inactive Employees Entitled to but not yet Receiving Benefit Payments	-
Active Employees	98
	98

Funding Policy

The plan benefits are financed on a pay-as-you-go basis.

Net OPEB Liability

The Town's net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	3.9%
Salary Increases	Not Applicable, Fixed Rate Subsidy
Investment Rate of Return	None, this is not a Funded Plan
Discount Rate	3.13%
Healthcare Cost Trend Rates	5.4% for 2020, Decreasing over Time to 3.9% in 2075

The state of Maryland's retirement and turnover assumptions, reduced by one-third, were used for general employees.

NOTE 11 POSTEMPLOYMENT HEALTH CARE BENEFITS (CONTINUED)

Net OPEB Liability (Continued)

Actuarial Assumptions (Continued)

Mortality rates were based on the Pub-2010 MP-2019 General and Safety Headcountweighted mortality tables.

The plan is on a pay-go basis and does not accumulate assets to offset future costs. There is no investment return assumption.

Discount Rate

The discount rate used to measure the total OPEB liability was 3.13%, based on the index rate for 20 year tax-exempt general municipal bonds, as required by GASB 75. The projection of cash flows used to determine the discount rate assumed that Town contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Thereafter			(152,715)

NOTE 12 OTHER INFORMATION

<u>Risk Management</u>

The Town is exposed to various risks of loss related to torts; destruction of assets; errors and omissions; employee's health and accident; and natural disasters. The Town purchases commercial insurance to protect its interest in its property and equipment, insurance against employee dishonesty and liability protection. Settled claims have not exceeded these coverages for the past three (3) fiscal years.

NOTE 12 OTHER INFORMATION (CONTINUED)

Contingent Liabilities and Commitments

Grants and Cost-Reimbursable Contracts

Most grants and cost-reimbursable contracts specify the types of expenditures for which the grant or contract funds may be used. The expenditures made by the Town under some of these grants and contracts are subject to audit. To date, the Town has not been notified of any significant unallowable costs relating to its grants or contracts. In the opinion of management, adjustments for unallowable costs, if any, resulting from such audits will not have a material effect on the accompanying financial statements. (This page intentionally left blank.)

TOWN OF ELKTON, MARYLAND NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2020

NOTE 1 CHANGES IN BENEFIT TERMS

There were no benefit changes for either plan during the year.

NOTE 2 CHANGES IN ASSUMPTIONS

Town of Elkton Police Pension Plan

No changes in assumptions during the year.

Maryland State Retirement and Pension System

Adjustments to the roll-forward liabilities were made to reflect the following assumptions in the 2018 valuation:

Investment Return Assumption	Decreased from 7.50% to 7.45%
Inflation Assumption (General)	Decreased from 2.65% to 2.60%
Salary Increases Assumption	Decreased from 3.15% to 9.15% to 3.10% to 9.10%

NOTE 3 METHODS AND ASSUMPTIONS USED IN CALCULATIONS OF ACTUARIALLY DETERMINED CONTRIBUTIONS

Town of Elkton Police Pension Plan

Actuarial	Projected Unit Credit
Amortization Method	Level Percentage of Payroll
Remaining Amortization Period	Closed periods range from 13 to 20 years remaining as of the 2017 valuation
Asset Valuation Method	Market value
Inflation	3.00%
Salary Increases	5.00%, including inflation
Investment Rate of Return	7.0%, net of pension plan investment expense, including inflation
Retirement Age	The earlier of 25 years of service or age 60 with ten years' service
Mortality	RP-2014 Healthy tables with Blue Collar Adjustments and generational projection by MP-2015

TOWN OF ELKTON, MARYLAND NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2020

TOWN OF ELKTON, MARYLAND NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION – GENERAL FUND BUDGET JUNE 30, 2020

NOTE 1 ORIGINAL AND FINAL BUDGETED AMOUNTS

The Town follows these procedures in establishing the budgetary data reflected in the financial statements:

The Mayor submits to the board of commissioners a proposed operating budget for the fiscal year as follows:

- 1. In April, the operating budget is prepared including proposed expenditures and the means of financing them.
- 2. A public hearing is conducted to obtain taxpayer comments after two weeks' notice is given in some newspaper(s) having a general circulation within the Town.
- 3. Thirty-two days prior to July 1, the budget is legally enacted through passage of an ordinance.
- 4. The budget ordinance becomes effective July 1, and provides spending authority for the operations of the Town government.
- 5. Transfers and appropriations between functions require approval of the board of commissioners.

Formal budgetary integration is employed as a management control device during the year for the General Fund. Budgetary control is maintained at the department level. At the end of the fiscal year, unencumbered appropriations lapsed.

The budget information, presented as required supplemental information to the accompanying government-wide financial statements, includes all budget ordinances and amendments as approved by the Mayor and board of commissioners for the fiscal year ended June 30, 2020. No annual budget and actual comparisons are presented in the basic financial statements or supplemental information for governmental funds utilizing project based budgets or proprietary funds.

During the fiscal year, the Commissioners may adopt supplemental appropriations. For the year ended June 30, 2020, supplemental appropriations that increased the budget for revenues by \$965,998 and the expenditures by \$590,551 for a net increase in use of fund balance of \$375,447.

NOTE 2 LEGAL LEVEL OF BUDGETARY CONTROL

The Town maintains budgetary control at the department level of expenditure within the fund.

TOWN OF ELKTON, MARYLAND NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION – GENERAL FUND BUDGET JUNE 30, 2020

NOTE 3 BASIS OF BUDGETING

The Town uses the modified accrual basis of accounting as its basis of budgeting.

- 1. Certain revenues collected in advance are recorded as liabilities (deferred revenues) rather than as revenues.
- 2. The following taxes are recorded on the modified accrual basis: real property tax, personal property tax, income tax, admissions tax, hotel tax, and highway user tax.
- 3. All other revenues are recorded only when the Town receives the related cash.

NOTE 4 RECONCILIATION OF BUDGET TO U.S. GAAP REPORTING DIFFERENCES

The accompanying schedule details the necessary adjustment to convert the results of operations and fund balances at the end of the year on the U.S. GAAP basis to budgetary basis:

		G	eneral Fund			
Revenues			xpenditures	Fund Balance		
\$	13,309,182	\$	16,120,271	\$	1,627,016	
	2,479,642				2,479,642
